Consumer Price Index

February 2017

(Base year 2014)

Detailed by:

- Expenditure groups
- Household welfare levels
- Household type
- Regions

Briefing

This publication provides an analysis of the results of the CPI for February 2017 with the base year 2014. In addition, the publication provides the results of the CPI by household welfare levels, by household type and by region and percentage change in the main expenditure group. The main findings of this analysis are outlined below:

Key Points

- The inflation rate in consumer prices for the first two months of 2017 was 2.0%, compared with the same period of 2016, as shown by the increase in the CPI to 107.7 during the first two months of 2017, up from 105.6 during the same period of 2016.
- The Abu Dhabi region contributed 54.6% of the total increase of 2.0% for the first two months of 2017 compared with the same period of 2016, while the Al-Ain region contributed 39.7% and the Al Gharbia region 5.6%.
- The CPI increased by 2.1% in February 2017 compared with February 2016.
- The CPI Increased by 0.1% in February 2017 compared with January 2017.
- The rise in consumer prices for the first two months of 2017 compared with same period of 2016, contributed to an increase of 2.2% in consumer prices for households of the bottom welfare level over the same period of comparison. Consumer prices rose by 2.5% and 1.6% for households of the middle and the top welfare levels respectively.
- Consumer prices for the first two months of 2017 compared with the same period of 2016, increased by 2.4% for citizen households, followed by 1.7% for non-citizen households and 1.3% for share households.
- Table (1) shows the 'Housing, water, electricity, gas and other fuels' group accounted for the largest rise in the index during the first two months of 2017 compared with the same period 2016, which contributed 73.4% to the overall increase in the CPI. Prices of this group increased by 4.3% over the same period.
- The 'Transport' group contributed 20.1% to the overall increase in the CPI for the first two months of 2017 compared with the same period of 2016. Prices of this group increased by 2.9% over the same period.

- While the prices of the 'Recreation and Culture' group decreased by 9.9% during the first two months of 2017 compared with the same period 2016, which contributed 23.4% in reducing the overall increase in the CPI.
